

I am strongly opposed to the FM translator service I have been taken away by LPFM. In my local community, KLOVE is my total source of listening enjoyment. The music is uplifting and gives myself and my whole family wholesome songs to listen to. My community as a whole is basically a family oriented town and KLOVE is very important to a majority of people and families in this town who value music that the whole family can listen to. The music KLOVE provides strengthens not only families but also communities by its encouragement and wholesome lyrics and values that it supports. PLEASE do not take this away from my family and my community.
